Sustainable Development Goals

SDG 3. GOOD HEALTH AND WELLBEING

SDG[1]	DESCRIPTION[2]	OUC ACTIONS/ACTIVITIES
	SDG 3 consists of 13 targets to be achieved by 2030 and 28 indicators to measure progress in ensuring healthy lives and promoting well-being for all, at all ages. SDG 3 aims: - to reduce maternal mortality (3.1); - end all preventable under-five deaths (3.2); - combat communicable diseases (3.3); - reduce mortality from noncommunicable diseases and promote mental health (3.4); - prevent and treat substance abuse (3.5); - reduce injuries and deaths from road traffic crashes (3.6); - provide universal access to sexual and reproductive health care, family planning and education	**ACADEMIC PROGRAMS** ***Bachelor's Degree Programs*** - Medicine - Medicine (in English) - General Nursing - Dentistry - Dentistry (in English) - Dental Technology - Pharmacy - Pharmacy Assistance - Medical Chemistry - Physical Therapy and Special Mobility - Balneotherapy, Physiotherapy, and Rehabilitation - Social Work - Psychology https://admitere.univ-ovidius.ro/wp-content/uploads/2024/06/Cifre-scolarizare-Licenta-2024.pdf **Master's Programs** - Management of Medical and Pharmaceutical Institutions and Services - Personality Psychodiagnosis - Clinical Chemistry - Physical Therapy, Rehabilitation, and Motor Reeducation https://admitere.univ-ovidius.ro/wp-content/uploads/2024/07/Cifre-scolarizare-Master-2024-completat-REV-FT-2024-07-11.pdf

	(3.7); - achieve universal health insurance coverage (3.8); - and reduce illness and death from hazardous chemicals and pollution (3.9). The means to achieve the goals are: - implementing the WHO Framework Convention on Tobacco Control (3.a); - supporting research, development and universal access to affordable vaccines and medicines (3.b); - increasing health financing and supporting the health workforce in developing countries (3.c); - and improving early warning systems for global health risks (3.d). At the national level, the specific targets of the 2030 Agenda are to: - Ensure universal access to information, education and counselling services to promote prevention and safe lifestyles; - Complete digitisation of the health system, including the elimination	**3.3.1. Current Collaborations with Healthcare Institutions** ***The "ROGEN – Development of Genomic Research in Romania" Project*** December 2024 – December 2029 Ovidius University of Constanța is a partner in this nationwide project, funded through the Health Program 2021–2027 (ERDF and ESF+). The project's objective is to carry out RDI activities in genomics, bioinformatics, and omics sciences by establishing a National Genomic Research Network and a national reference genome. Alongside the Cluj-Napoca Oncology Institute, the "Grigore T. Popa" University of Medicine and Pharmacy in Iași, the University of Bucharest, and 14 other leading institutions in the Romanian medical and academic system, Ovidius University, through this project, is contributing in the following areas: - establishing the National Genomic Research Network in medicine and the national sequencing and biobank infrastructure; - determining the reference genome for the presumably healthy population of Romania and creating the national genomic database; - conducting applied research on priority diseases: cancer (oncogenomics), rare diseases, infectious diseases, cardiovascular diseases (cardiogenomics), and neurological diseases. The partners also include highly renowned medical institutes in the country. https://www.umft.ro/ro/rogen-2025/ Ovidius University of Constanța has signed partnership agreements with several healthcare institutions, including local hospitals and the Constanța Public Health Department. https://univ-ovidius.ro/proiecte-parteneriate/parteneriate-internationale#parteneri-spitale-2 Current collaborations with the Constanta College of Pharmacists and the university hospitals in Constanta; clinical pharmacy residents complete rotations in the hospital departments in Constanta. The contracts and collaboration agreements with the Constanța College of Pharmacists, the university hospitals in Constanța, research centers, and doctoral schools are designed to ensure that future pharmacists receive training at the European level. https://farmacie.univ-ovidius.ro/pagini/acasa/

	of paper-based documents and printed records, to streamline and facilitate medical interventions, ensure that the population has rapid access to quality health services, treatments and medicines, and effectively monitor needs; - Reduce the prevalence of maternal and infant mortality, the incidence of breast and cervical cancer and teenage pregnancy, with a priority focus on vulnerable and disadvantaged groups; - Reduce maternal and neonatal mortality rates to below the EU average; - To increase vaccination coverage to the minimum level recommended by the WHO for each vaccine by developing a common platform for cooperation between authorities, doctors, patients, international organisations with experience in this field, representatives of companies in this field and other stakeholders; - Promoting awareness of	**3.3.2 Health Education Programs** ***Workshop: "The Role of the Symbolic Function of the Psyche in Coping with Adaptive Crises"*** March 24 The workshop explored the role of the transcendent function of the psyche in the process of psychological adaptation, a central concept in Jungian psychology and in recent developments in analytical psychology. Participants gained an understanding of the distinctions between sign, symbol, and the process of symbolization, according to Carl Gustav Jung's theory. Through interactive methods, the workshop analyzed how symbols facilitate the integration of internal experiences, supporting processes of maturation and psychological self-regulation. Case studies were presented to illustrate the practical application of the concepts discussed. https://pse.univ-ovidius.ro/workshop-rolul-functiei-simbolice-a-psihicului-in-traversarea-crizelor-adaptative-24-03-2025/ https://www.facebook.com/photo/?fbid=1252992973220375&set=a.193446289175054 ***The 5th Edition of the National Conference on Psycho-Oncology: "The Intersection of Psychology, Medicine, and Social Work"*** May 9 The event was aimed at all specialists, undergraduate and graduate students in the fields of psychology, medicine, and social work, as well as the general public interested in improving the quality of life for cancer patients. The event was organized in collaboration with the "Restart la Viață" Association. Among the guests was the president of the Constanța Regional Branch of the National College of Social Workers. https://www.facebook.com/photo/?fbid=1304545794731759&set=a.193446289175054 **Student Scientific Events** May 16–23 - Student Scientific Circle; - "Modern Concepts and Biomedical Applications"; - "The Future Pharmacist"; - "The Pharmacist and Patient Rights"; - "Clinical Diagnosis." https://farmacie.univ-ovidius.ro/manifestari-stiintifice-studentesti/manifestari-stiintifice-studentesti-2025/

	mental illness, reducing stigma and creating an environment where affected citizens feel accepted and can seek help; - End tuberculosis and combat hepatitis and other communicable diseases; - Reduce premature mortality from noncommunicable diseases by one third through prevention and treatment, and by promoting mental health and well-being; - Reduce mortality from chronic diseases; - Reduce the use of harmful substances.	***"INNOVATION Dialogues" Conference*** ***Side Event: LevelUP Digital in Healthcare*** September 24, 2025 As part of the INNOVATION Dialogues conference, the LevelUP Digital in Healthcare side event took place, organized by CITYINNOHUB in collaboration with Apollo AI Technologies and EY Romania. The event was dedicated to showcasing innovative digital solutions for the healthcare system and the opportunities that artificial intelligence offers for improving patient safety and the efficiency of healthcare organizations. Participants were introduced to ApolloMed—the AI application for healthcare professionals, which integrates: - instant access to standardized medical data (up-to-date SPCs) for rapid clinical decisions; - identification of drug interactions and their classification by risk level; - simplified and secure reporting of adverse reactions, in accordance with ANMDMR requirements; - text and voice command interaction for ease of use; - advanced NLP processing for clear and precise responses. In addition, Apollo AI presented other digital tools for clinics and hospitals, such as: - automation of medical documentation and reports; - integration with ERP/CRM systems to optimize workflows; - predictive analytics and monitoring of medical indicators; - compliance with GDPR standards and AI audits for transparency and data security. The target audience was: private clinics, hospitals, medical practices, associations, and organizations. Participation was free of charge. https://www.cityinnohub.ro/noutati/levelup-digital-pentru-companiile-din-domeniul-medical-24-septembrie-2025/ ***Workshop: "Clinical Psychological Assessment and Psychological Expertise—Conceptual Distinctions and Practical Skills"*** November 17 The workshop aimed to clarify the theoretical and operational boundaries between these two areas of application in contemporary psychology, and participants gained an in-depth understanding of the differences in their purposes, methodology, regulatory framework, and professional responsibilities through a comparative analysis of clinical and forensic practices. Third-year Psychology students and master's students in Personality Psychodiagnosis actively participated in discussions, case studies, and professional reflections, benefiting from an interactive learning environment. The event featured an interactive approach based on case studies, applied debates, and ethical

		reflections on the role and competencies of psychologists in the contexts of clinical assessment and psychological expertise. The event was organized in collaboration with the Center for Psycho-pedagogical and Social Research and Assessment. https://pse.univ-ovidius.ro/wp-content/uploads/2025/11/Workshop-P3-Evaluarea-psihologica-clinica-si-expertiza-psihologica.pdf https://www.facebook.com/share/p/1CZtQAKMDC/ ***8th Edition of the International Symposium "Alternative and Complementary Therapies (Homeopathy / Phytotherapy)"*** November 21–22 The event covered topics related to current therapeutic developments, homeopathy, and aromatherapy; students were granted free admission. Oral presentations: - Phytotherapy and the neurovegetative system: modulating internal homeostasis and the stress response; - Anti-inflammatory or anti-allergic? – medicinal plants for excessive immune system reactions; - Natural remedies with cholesterol-lowering effects; - Possibilities for Utilizing Plant-Based Raw Materials; - The Mentoring Program at Dona Pharmacies; - The Legal Framework for Homeopathic Medicines in the EU and Patients' Right to Homeopathic Treatments; - Automated Systems for Microbial Identification and Antimicrobial Susceptibility Testing Used in Medicine and the Pharmaceutical Industry; - Analysis of heavy metal bioaccumulation in Trapa natans L. from natural aquatic habitats; - Biologically active compounds from fungal extracts: perspectives in healthcare; - Phytosenolytics—quo vadis? - Screening of extraction methods and chemical characterization of plant extracts; - Polyphenolic profile of two varieties of Aronia melanocarpa (Michx.) Elliot from the Republic of Moldova; - Intrinsic agonists in plant extracts: the case of adenosine and in vitro activation of A1 receptors; - Current developments and perspectives on cosmetic ingredients; - Natural cosmetic ingredients: between science and marketing. https://farmacie.univ-ovidius.ro/evenimente/simpozion-terapii-alternative-si-complementare-homeopatie-fitoterapie-2025/

		Workshop: "The Essence of Occupational Therapy: Integrating Scientific Knowledge and a Patient-Centered Approach" November 28 The event was organized by the Faculty of Physical Education and Sports and led by Associate Professor Marinela Rață, Ph.D., from Vasile Alecsandri University in Bacău, Faculty of Movement, Sports, and Health Sciences. It contributed to the professional development of undergraduate, master's, and doctoral students through the sharing of knowledge and best practices. The event brought together undergraduate, master's, and doctoral students, as well as faculty members, who were interested in the modern applications of occupational therapy and how it can transform the therapeutic process through innovative, evidence-based interventions. The faculty continues to support high-quality professional training and an openness to new perspectives in the fields of physical education, health, and occupational therapy. https://www.facebook.com/FEFSCONSTANTA/posts/pfbid02NjFn73GGHeUxRwb3pqSEfM8cwVqfDv1mCtq7cUhsD61xkV76mmWfqRFpVMRAEK87l **3.3.3. Shared Sports Facilities** ***The "Handball International Education Project (HIEP)"*** February 2023 – January 2026 The project's overall goal is to promote the training, education, and professional development of handball coaches at the European level. Its main activities include developing cooperative partnerships in sports, organizing events, exchanging best practices, and holding mini-handball festivals for children. The project is led by the Italian Handball Federation, alongside international partners such as: - Ovidius University of Constanța (Romania); - European Platform for Sport Innovation (Belgium); - Olympiacos SFP and CJT Solutions (Greece); - Master Group Sport and L'Orma (Italy). Through its involvement in this project, Ovidius University of Constanța reaffirms its commitment to supporting European initiatives dedicated to sports education, continuing education, and international cooperation in the field of sports. This European project is funded through the Erasmus+ SPORT program (Key Action 2). https://www.univ-ovidius.ro/stiri/comunicat-de-presa-mini-festival-de-handbal-pentru-copii-organizat-de-universitatea-ovidius-din-constanta-in-cadrul-proiectului-handball-international-education-project/

		Workshop for coaches and athletes passionate about handball The event took place as part of European Sports Week and aimed to promote the digital training platform and the methodological manual developed as part of the project—essential tools for the training and professional development of handball coaches at the European level. https://www.facebook.com/FEFSCONSTANTA/posts/pfbid02Twf96E8CwkoxaxeZ6BjgyAMqVNnVMwc3fCsticv6bqJJywPeyxXh42vHZWsSuAHGl ***The European project "Promoting Resilience and Inclusion through Sport and Mental Aid (PRISMA)"*** July 2025 – December 2026 The main goal of the project is to promote peace, social inclusion, and health through physical activity. The project targets young refugees and other young people from vulnerable groups who frequently experience trauma, forced displacement, and social exclusion. They can benefit from structured recreational and therapeutic activities designed to support their integration into society. PRISMA aims to develop models and resources that can be replicated across Europe and will carry out the following activities in Constanța: - grassroots team sports for social inclusion; - training for coaches in mental health and cultural mediation; - psychological support for overcoming trauma and building resilience; - inclusion of young people with disabilities; - cultural events and exchanges, including the participation of refugees in "Ovidio Running"; - the PRISMA digital platform for coordinating activities and connecting the local community. The consortium of partners consists of a well-structured mix of organizations, coordinated by the Constanța Municipal Sports Club, and includes: - The Faculty of Physical Education and Sports at Ovidius University in Constanța; - The NOVAPOLIS Association – Center for Analysis and Initiatives for Development – a nongovernmental organization with experience in the social inclusion of young refugees; - ECOS – a European organization focused on initiatives related to sports and mental health; - ACS Arena Constanța—a sports organization that works with young people with disabilities and promotes social inclusion. Each partner contributes its specific expertise in areas such as educational integration, social support, cultural mediation, mental health coach training, adapted sports activities, and international cultural events. The project is funded through the Pilot Projects and Preparatory Actions (PPPS) / Sport Supports – Emergency Sport Actions for Youth program.

		https://www.csmconstanta.ro/prisma/ “OVIDIO Running for Peace Constanța” October 25 The event was part of the European PRISMA project and promoted health, physical activity, and an active lifestyle, as well as solidarity and social inclusion, bringing together over 2,000 participants of all ages. Participation was free and open to the general public. The event featured races for all ages, from children to advanced athletes: - a 9.9 km competitive race (with over 200 runners, many of whom were elite athletes); - a non-competitive Sport Walking race and races for children in various age groups. The event’s partners and sponsors were: - Ovidius University of Constanța; - Constanța City Hall; - Constanța County School Inspectorate; - Constanța County Directorate for Sports and Youth; - Autoprima, SOCEP, AquaFlux, CELCO, FitGym, Mathouse, RIK.RO, Dobrogea, Burger Bear, ZIP Escort, Tomis Clătite, Pescărie La Drăgoi, On Plonge Junior, VIVO Constanța, Luxuri Beauty, Solid House, CafeRoma, Consal Trade, and Termocentrale Constanța. - Kiss FM, CFM, Radio Constanța, and Play Radio. The event took place in Mamaia Resort, with the meeting point and starting line at Piațeta Perla, and featured prizes, surprises, and plenty of positive energy. https://www.facebook.com/share/p/19tLcf9Sdq/ ***The 3rd Edition of the “Bridge to the Future Cup – High School and College Students” Competition*** November 13 The event promoted physical activity, a healthy lifestyle, fair play, and team spirit among high school and college students. This event has become a tradition and brings together high school students from the “Nicolae Rotaru” Sports High School and college students from the Faculty of Physical Education and Sports at Ovidius University in Constanța. The competition took place in an extraordinary atmosphere, marked by fair play, energy, and a desire to excel. All matches were extremely competitive, highlighting the talent, determination, and passion for sports of the participating high school and college students. The competition also featured Bossaball exhibition matches, which captivated all participants with

		their dynamism, spectacle, and energy. The event's partners were: - Constanța County School Inspectorate; - Constanța County Directorate for Sports and Youth; - ASU Ovidius; - Autoprima Serv. https://www.facebook.com/FEFSCONSTANTA/posts/pfbid0SF3RtSVt4PGoW4Tpy624A7EEBhKQkREgPkvQgfQm4cbfTDTcmqLGFT4yneeR5SC1l ***Constanța Faculty of Medicine Days*** May 8–10 The Faculty of Medicine at Ovidius University in Constanța organized an anniversary event that included scientific conferences, an anti-drug conference hosted by the Association of Medical Students and Young Doctors in Constanța, and interactive workshops focused on prevention and medical education. The program for the Faculty of Medicine Days also included two specialized conferences. A key topic addressed during the event was "Valvulopathies – an Overview." The lecture, delivered in English by Dr. Kalbani Samith, founder of the ReziEasy platform, offered an international perspective on valvular pathology. At the same time, Dr. Gabriel Pănculescu gave a presentation titled "Nutrition for the Busy Medical Student," offering practical advice on maintaining a healthy lifestyle during one's studies. The main event of May 10 was the anti-drug conference, organized in partnership with the Tomis Antidrog Constanța Association. It brought together guests from related fields, such as actor Dan Cojocaru and clinical psychologist Coca Dumitru, a psychotherapist at the "St. Apostle Andrew" County Emergency Hospital. The discussions highlighted the risks of illicit substance use among young people and emphasized the importance of early psychosocial intervention. In addition, students had the opportunity to participate in hands-on workshops in the medical simulation labs, where they were able to practice essential procedures in a realistic, interactive, and technologically advanced setting. https://medic24.ro/zilele-facultatii-de-medicina-constanta-studentii-promoveaza-preventia-si-educatia-medicala-prin-conferinte-si-ateliere-interactive/ **3.3.5. Mental Health Support** ***Workshop: "Emotional Intelligence—Training the Mind and Soul"*** April 7 The workshop's theme was the logic of the mind and the logic of the heart. The purpose of the

		session was to understand emotion—from its biological basis to presence and attitude, and from bodily experience to intervention and decision-making. The perspectives addressed were: - Emotional intelligence—experiences, normalization, transformation - Emotional intelligence in professional practice https://pse.univ-ovidius.ro/fpse-organizeaza-workshopul-inteligenta-emotionala-antrenament-al-mintii-si-al-sufletului-07-04-2025/ https://www.facebook.com/photo?fbid=1273290187857320&set=a.193446289175054 ***Workshop: "EMOTIONAL MANAGEMENT IN SUICIDE ATTEMPTS: THERAPIES AND SPECIALIZED COUNSELING"*** May 16 The workshop topics were: - Neuropsychology of suicidal behavior – a clinical study - Unconscious images of depression and neuropsychological restructuring processes in Sandplay therapy - Virtual identity: existential landmarks in the face of digital anxiety - Refugee trauma and suicide risk - Fragility and resilience: integrative perspectives in working with suicide risk The event was organized in collaboration with the National College of Social Workers of Romania and the Faculty of Theology. https://pse.univ-ovidius.ro/workshop-managementul-emotiilor-in-tentativa-de-suicid-terapii-si-consiliere-de-specialitate-16-05-2025-ora-9-00-sala-umberto-eco-campus-corp-a/ ***Conference: "Mihnea Măruță: The Effects of Virtual Networks on Generation Z"*** June 6 The conference was presented by journalist and academic Mihnea Măruță and organized by the Faculty of History and Political Science; it analyzed the impact of social media on how young people relate to identity, relationships, and reality. Drawing on his research and his book *Virtual Identity*, Mihnea Măruță discussed online validation, social comparison, constant exposure to digital stimuli, and the transformation of interpersonal relationships. The event, held on the UOC campus and moderated by Associate Professor Daniel Citirigă, Ph.D., offered students and the public a critical perspective on the effects of the digital environment on Generation Z. https://www.ziuaconstanta.ro/stiri/cultura/lansare-de-carte-la-universitatea-ovidius-constanta-mihnea-maruta-prezinta-volumul-efectele-retelelor-virtuale-asupra-generatiei-z-900356.html?utm_source=chatgpt.com

		Workshop: "THE CHALLENGES OF COMMUNICATION IN RELATIONSHIPS, OR ABOUT BEING HEARD AND UNDERSTOOD" November 18 Students from the Faculty of Psychology and Educational Sciences participated in an interactive workshop titled "The Challenges of Communication in Relationships, or About Being Heard and Understood," dedicated to authentic communication, active listening, and building healthy relationships. The workshop was led by faculty members in partnership with a senior psychologist. During the session, students explored—through practical exercises and guided reflections—ways to communicate more clearly, express emotions authentically, and turn misunderstandings into opportunities for connection. The atmosphere was open and dynamic, with students enthusiastically engaging in all the proposed activities. The event was held in collaboration with the Center for Psycho-Pedagogical and Social Research and Evaluation. https://pse.univ-ovidius.ro/wp-content/uploads/2025/11/18-nov-site.-workshop-P2-Mizele-comunicarii-in-relatie-sau-despre-a-fi-auzit-si-a-intelege-.pdf https://www.facebook.com/share/p/1Cp6tAGuQw/ ***Workshop: "The Impact of Stress on Social Work Professionals"*** November 20 The workshop, led by representatives of public social service providers, highlighted information on stress management within an organizational context, as well as specific interventions and legislation aimed at protecting the health of professionals who work with vulnerable populations. The profession of social worker involves deep engagement with human realities marked by vulnerability, suffering, and inequality. For this reason, occupational stress becomes an inevitable component which—if not consciously managed—can significantly affect health, motivation, and the quality of services provided. Special guests at the event included: - the director of the General Directorate of Social Assistance and Child Protection in Constanța; - the deputy director of the General Directorate of Social Assistance in Constanța; - the director of the Constanța County Agency for Social Payments and Inspection. The event was held in collaboration with the Center for Psycho-Pedagogical and Social Research and Evaluation. https://pse.univ-ovidius.ro/wp-content/uploads/2025/11/Impactul-stresului-asupra-specialistilor-din-sistemul-de-asistenta-sociala-20.11.2025.pdf https://www.facebook.com/share/p/1HmitXSE2g/

		Workshop: "How Not to Be Manipulated by Your Own Mind" November 25 Second-year psychology students participated in an interactive and intensive workshop focused on understanding how the mind can distort our perceptions, emotions, and decisions. Over the course of 120 minutes, participants worked with therapeutic cards, explored cognitive biases, completed exercises in small groups of three, and experienced numerous "aha moments" that opened up new perspectives on the mental mechanisms that influence our daily lives. The atmosphere was energetic, warm, and engaging—the students collaborated excellently, reflected, asked questions, and discovered how they can become more aware of their own psychological processes. https://www.facebook.com/share/p/1CiyPbeeiH/ **3.3.6. Smoke-free policy** ***Law No. 349/2002 on the prevention and combating of the effects of tobacco product consumption*** Pursuant to the Law, the Government has established measures to prevent and combat the consumption of tobacco products. In accordance with Article 1, paragraph (1^1), smoking is strictly prohibited in all educational institutions, while Article 3, paragraph (7^1) prohibits educational institutions from selling tobacco products. https://legislatie.just.ro/Public/DetaliiDocument/175441 **Relevant national legislation** ***Law No. 95/2006 on Health Care Reform*** This law is the primary legislative act governing the structure, operation, and financing of the health care system in Romania. Objectives and General Structure - public health: measures and strategies organized by the state to promote health, prevent disease, and protect the population; - coordinating authority: The Ministry of Health coordinates medical care and public health programs at the central level, supported by the Public Health Directorates (DSP) at the local level; - funding: provided through the state budget, local funds, and the Single National Social Health Insurance Fund (FNUASS). Main Regulated Components The law is divided into several titles covering key areas of the healthcare system: - public health and national health programs (curative and preventive programs implemented by

		the National Health Insurance House [CNAS] and the Ministry of Health); - primary healthcare (family medicine and medical practices); - Emergency medical care and first aid (the integrated system that includes the single emergency number 112, SMURD, UPU, and CPU); - civil and professional liability of medical personnel (rules regarding malpractice and liability in cases of medical errors). https://legislatie.just.ro/public/detaliidocument/71139 ***Law No. 46/2003 on Patient Rights*** This law regulates patient rights in Romania and establishes the legal framework for the relationship between patients and healthcare facilities. Main Rights Covered - the right to quality medical care: patients have the right to care at the highest standard available to society, based on existing resources, without any discrimination based on race, sex, age, religion, or opinions; - the right to medical information: patients have the right to be informed about their health status, proposed interventions, risks, treatment alternatives, and the consequences of refusing treatment; - the right to informed consent: No medical intervention may be performed without the patient's (or their legal representative's) free and informed consent; the patient has the right to refuse or discontinue treatment by confirming this decision in writing; - the right to confidentiality and privacy: All information regarding the patient's condition, diagnosis, treatment, and personal data is confidential, even after the patient's death; - the right to a second opinion: the patient has the right to request a second medical opinion from another specialist; - the right to end-of-life care and dignity: terminally ill patients have the right to appropriate palliative care to live out their final moments with dignity; - "the right to be forgotten" (for cancer survivors): individuals who have undergone cancer treatment are not required to provide oncological data to insurance companies 7 years after the completion of their treatment protocol (or 5 years if the diagnosis was made before the age of 18). https://legislatie.just.ro/Public/DetaliiDocument/41483
